## Yala Peak (5732m) Climbing

The Yala Peak(5732m) lies between the Langtang and Dorjelakpa Himalayan. Yala Peak is close distance from Kathmandu and requires 10 to 12 days to complete the summit. This peak is less technically required. For this Peak, We start our trek from Syabrubensi village towards Langtang Khola. The trekking trail goes along the Langtang khola (River) up to Lama hotel, Langtang valley, and Kyanginkgumpa. From Kyangin village it takes one day to be at the base camp where we set up our Tents. There will be a brief given by our Climbing guide (Sherpa) and to have a course about the technique of proper climbing. Yala Peak is mainly climbed on the icy rocks and on the top most of the time will be snow. From the Summit, you can see the spectacular views on the left of the Langtang Lirung and Shisapangma mountains in the north. Ganjala peak and other many peaks are in the south and Dorjelakpa is to the far east. Asian Expedition Pvt.Ltd organizes this peak with good preparation, less risk, and a successful summit.
